

Band Uniform Care

- Do not switch uniform parts with anyone. Every part is assigned specifically to one student.
- If a uniform part does not fit properly, contact Mrs. Bruski. You **may hem by hand** pants or skirts. **DO NOT CUT ANY FABRIC.** Make sure students don't step on their pants or skirts.
- Always save any loose part before it gets lost: Buttons, Snaps, Buckles, Liners. Contact Mrs. Bruski. You may **sew on by hand** any loose buttons or snaps.
- Damp uniforms need to be air dried before being stored.
- Complete uniform needs to be stored **on hanger inside garment bag** and returned during spring collection.
- Stained uniforms need to be professionally cleaned immediately (Lifestyle Garment Care, formerly Roth Cleaners).
- Wash gloves and jacket collar liners as needed.
- Contact Mrs. Bruski for concerns about the uniform. Never use any sewing machine or glue to mend any part of the uniform.
